GREENSPEAKER
FORCE OF NATURE
VERSION 3.0

GREENSPEAKER

Bloom & Thorn

Life held this world long before the first city rose, and it will take the land back once civilization crumbles, as it always does. A Greenspeaker hears that patient, ancient pulse and answers it. With a whispered word and a handful of seeds, they coax root and vine from the earth below their feet, raise canopies over weary allies, and turn a quiet glade into a bramble of thorns.

However, growth takes time. A seed planted at the start of battle is a small thing, easily overlooked. Tend it, nurture it, let it swell, and what blooms is far deadlier than any blade. The wise understand that a Greenspeaker should not be asked to hurry. Be patient, and nature itself shall rend your foes.

Plant Seed Dice and nurture them as the fight goes on. Expend them early for quick but lesser effect, or let them grow for devastating effect!

Lash foes with vines, entagle them in thickets, and unleash ancient groves of explosive growth!

Shift with the turning Seasons! Grow bark on your skin, meld into trees, and become more plant than person.

A patient, scaling spellcaster who grows stronger every round.
